Nguyễn Trung Công Dưỡng

Intern Fullstack

Ngày sinh: 17/08/2004
Giới tính: Nam
Số điện thoại: 0373911708
Email: congduongnguyentrung@gmail.com
Website: facebook.com/TopCV.vn
Địa chỉ: 82/2, Nguyễn Xí , thành phố HCM, Bình thạnh.

CAREER OBJECTIVE

I am a fourth-year IT student seeking a Software Engineer internship to gain real-world development experience, enhance my programming skills, and participate in building practical web projects with great user experience. I am looking for a professional environment where I can work on real projects and learn from experienced engineers.

EDUCATION

2022 - 2025

Ho Chi Minh City University of Transport

GPA: 3.17/4/0

Information Technology Major

PROJECTS

3/2025 - nay

Website Social media

react, tailwindcss, nodejs, inngest,clerk,...

Description:
Build a mini social-network application that allows users to register accounts, create posts, like (heart) posts, comment, and follow other users. The interface is modern, optimized for user experience, and supports real-time content updates.

Main features:

- Register / log in with email or Google
- Create, edit, and delete posts (with images)
- Comment, like (heart), and follow other users
- Personal profile page displaying user information and their posts
- Responsive UI for both desktop and mobile
- Real-time content updates support

Achieved Results:

- Successfully deployed a stable demo version on Vercel: https://build-and-deploy-a-full-stack-socia-three.vercel.app/

Link GitHub: https://github.com/nguyentrungcongduong/Build-and-Deploy-a-Full-Stack-Social-Media-App.git

4/2025 - nay

Template Ecommerce Nextjs

Nextjs,bootrap

Description:

- Converted pre-built HTML/CSS templates into Next.js for future use.
- Applied technologies such as Clerk for authentication.
-

Achieved Results:

- Successfully deployed a stable demo version on Vercel: https://nextjs-first-seven-pied.vercel.app/

2024 - nay

Web bán sách

React,tyscript, spring boot,tailwindcss

Description:

Built an online bookstore that lets users browse the catalog, search and filter books, add items to a shopping cart, and perform a simulated checkout. Admins can add, edit, and delete book information.

Main features:

- Display book listings and individual book detail pages
- Search and filter books by category, title, or author
- Add/remove books from the shopping cart
- User registration / login
- Admin book management (create / update / delete)
- Responsive, device-friendly UI

Results / Achievements:

- Designed a modern user interface and implemented reusable components for faster development and easier maintenance.

2024 - nay

Multiple-Choice Exam Website

html, css, spring boot,jquery,thymeleaf

Description:

Developed an online multiple-choice testing website that allows users to log in, select exams, take tests, and view their results immediately after submission. The system saves scores, displays rankings, and includes an admin panel for adding new questions.

Technologies Used:

HTML, CSS, Spring Boot, jQuery

Main Features:

- User login / registration (Firebase Authentication)
- Display exam lists by topic
- Real-time timed quizzes with countdown
- Automatic scoring after submission
- Result display, score statistics, and ranking board
- Admin can add / edit / delete questions
- Responsive design for both mobile and desktop
